- **Batch samples are periodically tested by accredited FDA laboratories**
- **Tic-Tong® is free of oral and intraperitoneal toxicity, and has never shown any case of allergic reaction**

# **Tic-Tong® vs. Wooden Tongue Depressors**

- **PRODUCT'S DIFFERENTIAL:**
- **The use of Tic-Tong® has shown a reduction in discomfort, anguish and fear in children during a doctor's visit caused by ordinary wood tongue depressors**
- **Tic-Tong® improves interaction with patients and analysis of reactions**
- **Tic-Tong® stimulates all 5 senses**
